EXPERIENCE

Freelance

Front-End Developer

JULY 2019–PRESENT

I have built websites on a freelance basis for clients such as LiuGong North America (via Tangelo Ideas) and Origin Mec (via graphic matt{rs}). Primarily revolving around implementing design mockups and integrating them with content management systems such as Drupal and WordPress.

Texas Children's Hospital

Intern

JUNE–JULY 2019

Front-End Developer

JULY 2019–APRIL 2020

- Used HTML, CSS, and JavaScript to code the front-end of the site's interface and components.
- Used PHP and Twig to hydrate the front-end with dynamic content and data managed by Drupal 8.
- Plan, develop, and maintain a centralized Design System, including a code library with detailed documentation, branding guidelines, and style guides.
